

With **you**, our mission strengthens the pulse of our

# COMMUNITY

## DEEPLY ROOTED

**Give local, stay local**  
Blood donations stay local, benefitting patients in your community.

## LIFESAVING

**Improved outcomes**  
Patients with rare diseases have access to specialty products and care.

## INNOVATION

**Leading-edge research**  
Advancing care for patients nationwide through Versiti Blood Research Institute

versiti™

## Blood Center of Illinois

Versiti Blood Center of Illinois is a non-profit organization headquartered in Aurora, IL, specializing in blood products and services and providing expert medical and technical support. Founded in 1943, it is the oldest blood center in Illinois and serves patients in Chicagoland and Northwest Indiana. For more information, visit [versiti.org/Illinois](https://www.versiti.org/Illinois)

# Donors. Diagnostics. Discovery. Versiti makes an impact.

## We put people first.

### Blood Services

Blood donations help patients locally. Those with special needs in your community will have improved access to specialty matched units and consultative services.

### Diagnostic Labs

We are the science behind the medicine for national hospitals providing personalized solutions in transplantation and hematology.

### Physician Services

A host of transfusion-related medical services including therapeutic services, physician consultations, adult hematology, and comprehensive care for patients with bleeding disorders.

### Pharmacy

Product distribution for hospitals, facilities, and patients' homes.

### Donor Testing

Infectious disease testing (IDT) to determine donor suitability and blood product safety.

### Versiti Blood Research Institute

Versiti Blood Research Institute attracts leading-edge researchers from around the world who are dedicated to unlocking the healing potential of blood.
