

IMPORTANT INFORMATION

For the customers of Versiti Diagnostic Laboratories

Testing Services

UPDATE

NYSDOH Testing Requirements January 25, 2026

Important Notice: NYSDOH Testing Requirements Effective January 26, 2026

Beginning January 26, 2026, New York State Department of Health (NYSDOH) regulations will require special approval for certain tests performed on specimens from New York patients.

If you plan to submit a specimen for a patient residing in NY for a test **not currently on our NYSDOH-approved list**, you must notify us **before shipping**.

Why advance notice is required:

- Confirm if the test is covered under our NY permit
- Submit a Single Use Permit (SUP) request to NYSDOH if the test is not approved

What we need from you:

- Notify Versiti prior to shipping the specimen
 - **Phone:** 800-245-3117 option 1
 - **Email:** Labinfo@versiti.org
- Provide:
 - Ordering provider name and contact information
 - Test name
 - Specimen collection date
 - Laboratory specimen ID
 - Patient Information:
 - First and last name
 - Date of birth
 - Medical reference number
 - Patient diagnosis/symptoms

More information can be found at the top of our Test Requisition page at <https://versiti.org/products-services/requisitions>.

To verify whether a particular test is New York approved, please see the online catalog page as outlined on the next page.

Failure to notify us may result in delays while we obtain SUP approval.

For questions or to confirm if a test is NY-approved, please contact:
versiti_dl_operational_excellence@versiti.org

 CPT Codes	• 85247
 Method	Electrophoresis
 Turnaround Time	7-10 days
