

Versiti Blood Research Institute (VBRI) Versiti Junior Advisory Board (VJAB)

Versiti is a fusion of donors, scientific curiosity and precision medicine that recognizes the gifts of blood and life.

We are on a mission of service to improve patient outcomes, to advance the field of personalized medicine, and to strengthen the health of communities everywhere. We make discoveries that contribute to better patient care. And we are a beacon of hope, care and innovation in the communities we call home.

Junior Advisory Board

The Versiti Junior Advisory Board is a group of community-minded professionals who are working together to:

- **Connect** and network with other professionals to bring VBRI's work to the broader community
- **Inspire** others to get involved through volunteer work, blood donation and financial support to advance blood research
- **Lead** the way as the next generation of leaders

Board members are responsible for growing and strengthening the program to ensure that the Versiti Blood Research Institute Foundation is relevant to the next generation of leaders and supporters. As a VJAB member, you will be an ambassador for the program, representing Versiti in the community and encouraging your peers to get involved through philanthropy, volunteering and event participation. Board members are expected to attend quarterly board meetings, two events per year, and support Versiti with a personal financial donation or through a get.

Applying to the Junior Advisory Board

Applications to join the VJAB are open year-round, and new members are admitted in the fall and spring. Please contact Director of Advancement, Rachel Margolis-Goodman at RMargolis@Versiti.org if you have any questions or need additional information. Or scan the QR code and fill out the online form.
