

Versiti Blood Research Institute (VBRI) Versiti Junior Advisory Board (VJAB)

Versiti is a fusion of donors, scientific curiosity and precision medicine that recognizes the gifts of blood and life.

We are on a mission of service to improve patient outcomes, to advance the field of personalized medicine, and to strengthen the health of communities everywhere. We make discoveries that contribute to better patient care. And we are a beacon of hope, care and innovation in the communities we call home.

Versiti Blood Research Institute located in Milwaukee, WI is dedicated to hematology in all its facets, spanning basic, translational and clinical research, all with one goal: to make people's lives better.

Junior Advisory Board

Versiti Junior Advisory Board is a group of community-minded professionals who are working together to connect, inspire and lead.

- Connect and network with other professionals to bring the VBRI's work to the broader community
- Inspire others to get involved – volunteer, donate blood and financially to research to further advance blood research
- Lead the way – as the next generation of leaders.

Board members are responsible for growing and strengthening the program to ensure that the VBRIF is relevant to the next generation of leaders and supporters. As an VJAB member you will be an ambassador for the program, representing Versiti in the community and encouraging your peers to get involved through philanthropy, volunteering, and event participation.

Applying to the Junior Advisory Board

Applications to join the VJAB are open year-round, and new members are admitted in the fall and spring. Please contact Alberto Huerta at ahuerta@versiti.org if you have any questions or need additional information.
